

# chantry modern sharpener

CHANTRY MODERN  
SHARPENER  
570

ALTERNATIVE COLOURS AVAILABLE:

## A look to the future.

Designed by Sam Hecht at Industrial Facility, the Chantry Modern is the 21st century version of our enduring classic.

Utilising the same proven mechanism and sharpening method found in all of our previous Chantry Sharpeners the Chantry Modern has been restyled to compliment the modern kitchen with clean lines and no-nonsense functionality.

As with all Chantry sharpeners, the Chantry Modern is suitable for knives with plain or serrated edges. No batteries are required and the steels are easily replaceable.

 Made in Sheffield.
